Case study analysis

Razorpay Checkout Redesign

91 Strong

Clear problem framing, documented iteration rounds, and measurable outcomes. This case study raises your match score for fintech roles.

Cred Rewards Hub

82 Good

Good visual craft but the process section ends at wireframes — showing final designs with rationale would strengthen this.

Internship Brand Project

58 Needs work

2 of 4 case studies don't show your design process. Add wireframes or iteration steps to improve your UX match score.

Personal Dashboard Concept

71 Incomplete

No context for why this was designed or who it's for. Add a problem statement and user context.
