

✦ PORTFOLIO-FIRST INTELLIGENCE

Your work speaks first.

Folio Space evaluates design talent by portfolio quality — not resume keywords. Get matched based on actual work, specific skills, and verifiable output.

Three intelligence pods. One honest picture.

Portfolio Intelligence

Extracts skills, domains, and tools from your actual work. Scores each case study on process visibility, visual craft, and tool depth.

AI Matchmaking

Matches your real output to open roles. No keyword guessing — just work evidence mapped to what teams actually need.

Assessment & Intelligence

8-dimension evaluation covering design thinking, craft, and problem-solving. Retakeable, transparent, and explained in plain language.

Three steps. No resume required.

Connect your portfolio once. Get a ranked intelligence report and matched opportunities immediately.

01

Connect your portfolio

Link Behance, Dribbble, your personal site, or upload a PDF. Folio Space reads your actual work, not your job titles.

02

Get your intelligence report

AI extracts your skills, tools, and domains. Each case study is scored on process visibility, visual craft, and impact. Takes under 60 seconds.

03

Match to roles that fit

Your report is matched against active roles. You see your score, what's missing, and exactly why a role fits — before you apply.

👤 FOR RECRUITERS

Hire for work, not keywords.

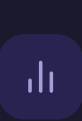

Folio Space gives you a portfolio intelligence report for every applicant — scored, ranked, and matched to your role requirements. No more manually reviewing 40 Behance links.

- 

Portfolio-first evaluation

Every candidate is scored on visual craft, process documentation, and domain depth — before you read a word.
- 

AI match scoring

Each applicant gets a match percentage against your specific role. Filter to 85%+ in one click.
- 

Side-by-side comparison

Compare up to 3 candidates across portfolio score, assessment results, and skill match in a single view.
