Razorpay

Product Designer

Full-time

Remote

₹18–24 LPA

About Razorpay

Razorpay is India's leading full-stack financial solutions company. The design team of 24 works across payments, banking, and capital products used by 8M+ businesses.

- Fintech
- B2B SaaS
- Series F
- 2,800 employees

Role description

You'll work within the Checkout product team designing flows for high-stakes payment moments. This is a craft-heavy role — you'll ship features independently and partner with PMs and engineers through the full cycle.

Key responsibilities:

- Own end-to-end design for checkout and post-payment flows
- Run usability testing and synthesize findings directly into design decisions
- Maintain and extend the checkout component library
- Collaborate with 2 senior designers and document your decisions

Required skills

- ✓ Figma

✓ Prototyping

User Research

✓ Design Systems

Interaction Design

✓ Wireframing

You match 4 of 6 required skills.

Hiring process

- 1

Portfolio review

3–5 days
- 2

Take-home design challenge (3 hours)

1 week deadline
- 3

Design critique call with hiring manager

45 min
- 4

Final loop with PM and tech lead

1.5 hours
